

# BRAMAL LED

Bramal LED introduces its new high efficiency, low cost High Bay range

**Available to order – 4100K & 5000K clear lens, 4, 6 or 8 lamp versions**

Up to **75% energy savings** over traditional Metal Halide solutions

Superior light spread – **no “hot spot”**

Low initial cost - **Zero** maintenance costs after installation – no ballast or lamps to replace

**Plug and play** on 120 or 347 VAC

**100,000 hour life** (that’s over **10 years** when used 24/7!)

Available in 4, 6 or 8 lamp formats – output of **8,000 to 18,000 lumens**

**Compare with your old Metal Halide 400W High Bay lamps**

Specification	Bramal LED 6 lamp High Bay	400W Metal Halide
Energy Consumption	96W	475W (incl. ballast)
Lifetime	100,000 hours	Up to 20,000 hours
Output	8,000-18,000 lumens	12,000 to 15,000 lumens
Instant “on”	Yes	No
Sensor controllable	Yes	No
Maintenance costs	<b>\$0</b>	<b>\$300 (4x lamp and ballast)</b>

**Conclusion: USE Bramal LED High bays, install once, save 75% energy and \$100’s in maintenance!**

**Note** – Lamp and ballast costs for MH replacements are an average of commonly available replacement products and no labor time is included (cost of lifts etc.)  
\*for 4 lamp fixture

Lamps are DLC qualified
